1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 22 through 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Taub in view of Freiburger et al (both of record).

Taub teaches a wedged tissue container in combination with a stack of sheets which can be tissues (see abstract) including everything except a removable perforated section and the stack of tissues being interleaved.

Freiburger et al teaches a tissue container in combination with an interleaved stack of tissues (see Fig. 7) and where the container is provided with a removable perforated section in adjacent walls of the container to cover the dispensing opening.

It would have been obvious to one of ordinary skill in the art to employ an interleaved stack of tissues in the dispenser of Taub in view of the teachings of Freiburger et al thereby insuring access to the next tissue to be dispensed.

Further, it would have obvious to one of ordinary skill in the art to provide a removable perforated portion to cover the dispensing open of Taub until ready for use as taught by Freiburger et al. Such removable section prevents a contamination of the contents prior to opening and use by a user. Clearly a desirable result.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
